Dear Community Connectors Grant Review Committee,

As an advocate for safe, equitable active transit infrastructure in Pensacola, I am writing to extend my enthusiastic support for the Bluffline project.

Our initiative, Ciclovía Pensacola, champions the transformation of city streets into vibrant and active public spaces. Since our first event in 2017, we have witnessed the profound impact that these changes can have on a community's health, economic growth and overall sense of well-being. We believe that the Bluffline project embodies these very principles.

The proposed 10-mile greenway from Scenic Heights to West Pensacola represents an ambitious step towards a more inclusive, connected and vibrant city. The project promises not only to enhance transportation safety and access but also to foster a culture of outdoor recreation and active living – values that align perfectly with the mission of Ciclovía Pensacola.

Moreover, the planned integration of the Bluffline project with the forthcoming Hollice T Williams Greenway aligns with our dedication to reclaiming and revitalizing public spaces. Together, these initiatives can play a transformative role in reshaping our cityscape and fostering a stronger sense of community.

I urge you to support Bluffline, Inc.'s application for the Community Connectors Grant Program. Their vision of a more connected, accessible, and vibrant Pensacola aligns perfectly with the program's objectives. Together, we can help shape a healthier, more prosperous, and more connected future for our city.

Thank you for your consideration.

Sincerely,
