

Letter of Support for Bluffline, Inc and Their Grant Application from Smart Growth America

Dear Grant Review Committee,

I am writing to express my support for Bluffline, Inc and their application for Smart Growth America's Community Connectors Grant. As a member of the Pensacola City Council, I believe it imperative that we consider the unique needs and perspectives of Pensacola's diverse population as well as maintain sensitivity to the built and natural environment as a Coastal City.

Bluffline, Inc has demonstrated commitment to fostering smart growth practices that are aligned with our city's vision for a vibrant and sustainable future. Their socially and environmentally equitable approach to connectivity is aligned with the City of Pensacola's priorities, making them an ideal candidate for the grant assistance from Smart Growth America.

The grant application from Smart Growth America will contribute significantly to the progress and well-being of our city. By supporting initiatives that prioritize environmentally friendly and efficient land use and connections between places, people and the past, we can create a more livable and prosperous Pensacola for current and future generations.

Bluffline, Inc's dedication to community engagement and sustainability, makes them a valuable partner for the growth and development of our City. Their proposed projects have the potential to enhance public spaces, reconnect what was and has been divided, create job opportunities, and stimulate economic growth in underserved areas.

In my capacity as a Pensacola City Councilman, I have witnessed firsthand the positive impact of well-planned urban development initiatives. Smart Growth America's grant support of Bluffline, Inc will undoubtedly accelerate these positive changes and lead to even holistic benefits for our community.

I fully endorse Bluffline, Inc's grant application to Smart Growth America and kindly request that you support our community through Bluffline, Inc with this grant award. By doing so, we can collectively take additional steps towards making Pensacola a model city for sustainable growth and community development.

Sincerely,

Jared Moore
